Non-allowable services cost and the appropriate indirect overhead, as determined in the cost report, shall not be included in the reimbursement rate.

- C. Medicaid reimbursements shall be limited to an amount, if any, by which the rate calculation for an allowable claim exceeds the amount of a third party recovery during the Medicaid benefit period. In addition, the reimbursement shall not exceed the amount according to 42 CFR 447.321 (1992).
- D. Under this plan, a CPHU shall be required to accept Medicaid reimbursement as payment in full for covered services provided during the benefit period and billed to the Medicaid program; therefore, there shall be no payments due from Medicaid recipients. As a result, for Medicaid cost reporting purposes, there shall be no Medicaid bad debts generated by Medicaid recipients. Bad debts shall not be considered as an allowable expense.
- E. Allowable costs of contracts for physician services shall be limited to the prior year's contract amount, or a similar prior year's contract amount, increased by an inflation factor based on the Consumer Price Index (CPI) for services rendered in the contract.

#### IV. Standards

- A. Changes in individual CPHU rates shall be effective July 1st of each year.
- B. All cost reports received by AHCA as of April 15th of each year shall be used to establish the encounter rates for the following rate period.

C. The individual CPHU's prospectively determined rate shall be adjusted only under the following circumstances:

1. An error was made by AHCA in the calculation of the CPHU's rate.
2. A provider submits an amended cost report used to determine the rates in effect. An amended cost report may be submitted in the event that it would effect a change of 1 percent or more in the total reimbursement rate. The amended cost report must be filed by the filing date of the subsequent cost report. An audited cost report may not be amended. A cost report shall be deemed audited 30 days after the exit conference between field audit staff and the provider has been completed.
3. Further desk or on-site audits of cost reports used in the establishment of the prospective rates disclose a change in allowable costs in those reports.

D. Any rate adjustment or denial of a rate adjustment by AHCA may be appealed by the provider in accordance with 59-1.021, F.A.C., and Section 120.57 Florida Statutes.

E. CPHU reimbursable services are defined by Rule 59G-4.055 as services rendered by the clinic:

- physicians
- dentists
- physician assistants
- nurse practitioners

- registered nurses

- services and supplies incidental to physicians, dentists, RNs, ARNPs, and PAs

F. Prescription drugs and immunization costs shall be reimbursed through the Pharmacy Program utilizing current fee schedules established for those services. These costs shall be reported in the cost report as non-allowable services, and product cost shall be adjusted out. Costs relating to contracted pharmacy services shall be reported under non-allowable services, and adjusted out in total.

G. Costs relating to the following services are excluded from the encounter rate and shall be reported in the cost report under non-allowable service.

1. Ambulance services;
2. Home health services;
3. WIC certifications and recertifications;
4. Any health care services rendered away from the clinic, at a hospital, or a nursing home. These services include off site radiology services and off site clinical laboratory services. However, the health care rendered away from the clinic may be billed under other Medicaid programs, if eligible.

#### V. Methods

This section defines the methodologies to be used by the Florida Medicaid Program in establishing individual CPHU reimbursement encounter rates.

A. Setting Individual CPHU Rates.

1. Review and adjust each CPHU's cost report available to AHCA as of April 15th to reflect the results of desk and field audits.
2. Determine each CPHU's encounter rate by dividing total allowable cost by total allowable encounters. (See Section X for definition of allowable encounters).
3. Adjust each CPHU's encounter rate with an inflation factor based on the Consumer Price Index (CPI) of the midpoint of the CPHU's cost reporting period divided into the CPI projected for December 31 of each year. The adjustment shall be made utilizing the latest available projections from the Data Resource Incorporation (DRI) Consumer Price Index. (Appendix A)

#### VI. Payment Assurance

The State shall pay each CPHU for services provided in accordance with the requirements of the Florida Title XIX State Plan and applicable State and Federal rules and regulations. The payment amount shall be determined for each CPHU according to the standards and methods set forth in the Florida Title XIX County Public Health Unit Reimbursement Plan.

#### VII. Provider Participation

This plan is designed to assure adequate participation of CPHU's in the Medicaid Program, the availability of CPHU services of high quality to recipients, and services which

are comparable to those available to the general public.  
This is in accordance with 42 CFR 447.204 (1992).

#### VIII. Revisions

The plan shall be revised as operating experience data are developed and the need for changes are necessary in accordance with modifications in the Code of Federal Regulations.

#### IX. Payment in Full

Participation in the Program shall be limited to CPHU's which accept as payment in full for covered services the amount paid in accordance with the Florida Title XIX County Public Health Unit Reimbursement Plan.

## APPENDIX A

### FLORIDA TITLE XIX COUNTY PUBLIC HEALTH UNIT (CPHU) REIMBURSEMENT PLAN

#### CALCULATION OF INFLATION INDEX

1. An inflation index for CPHU's to be utilized in adjusting each CPHU's encounter rate for inflation is developed from the Data Resources, Inc. (DRI) Consumer Price Index (CPI)-All Urban (All Items) inflation indices. An example of the technique is detailed below. Assume the following DRI Quarterly Indices for the South Atlantic Region:

	<u>1989</u>	<u>1990</u>	<u>1991</u>	<u>1992</u>	<u>1993</u>
Q1	1.071	1.129	1.188	1.230	1.272
Q2	1.087	1.140	1.199	1.239	1.282
Q3	1.098	1.161	1.208	1.250	1.291
Q4	1.109	1.180	1.219	1.261	1.302

2. Based on the quarterly indices, monthly indices are calculated by averaging pairs of quarterly indices and interpolating between these averages as follows:

<u>QUARTER</u>	<u>INDEX</u>	<u>AVERAGE INDEX</u>	<u>MONTH</u>
1	1.071	1.079	MARCH 31
2	1.087	1.0925	JUNE 30
3	1.098	1.1035	SEPT. 30
4	1.109		

$$\begin{aligned}
 \text{April 30 Index} &= (\text{June 30 Index} / \text{March 31 Index})^{1/3} (\text{March 31 Index}) \\
 &= (1.0925 / 1.079)^{1/3} (1.079) \\
 &= 1.084
 \end{aligned}$$

$$\begin{aligned}
 \text{May 31 Index} &= (\text{June 30 Index} / \text{March 31 Index})^{2/3} (\text{March 31 Index}) \\
 &= (1.0925 / 1.079)^{2/3} (1.079) \\
 &= 1.088
 \end{aligned}$$

All other monthly indices can be calculated in a similar fashion. To determine the applicable inflation factor for a given CPHU for the rate period July 1, 1991, the index for December 31, 1991, the midpoint of the rate period, is divided by the index for the midpoint of the Provider's Fiscal Year. For example, if a CPHU has a fiscal year end of November 30, 1990 then its midpoint is May 31, and the applicable inflation is:

$$\begin{aligned}
 &\text{December 1991 Index} / \text{May 1990 Index} (1.2245 / 1.20016) \\
 &= 1.02028
 \end{aligned}$$
